Mid. Sem / Term work : Mid. Sem / Term work marks are an integral part of the final awards given in each university examination and consist of :

i. 50% of total on the basis of class tests and / or terminal examinations, if held. The remaining are on the basis of attendance and submissions of the assigned tasks, in case of Theory subjects.

ii. 50% of total based on the quality of practical work done and feed-back based on interaction during practical classes. The remaining are based on the submission of Journals in time and the quality of submissions.

iii. 50% marks are awarded on the basis of attendance in classes.
Efforts are made to hold at least one class test of each subject, in a month. It is in the interests of students to appear in the tests and try to get good ratings as these not only help him to procure good sessional marks but also to keep up with the progress of the subject in the class room.

Passing Standards for B.Tech. Programme

1. Grading System

(i). The conversion from grade to an equivalent percentage in a given academic program shall be according to the following formula applicable to credit base grade system :

$$\text{Percentage marks scored} = \frac{\text{CGPA obtained by the student}}{10} \times 100$$

(ii). Credit Based Grading System (For Professional Courses):

1. Each course, along with its weightage in terms of units and equivalent credits shall be recommended by the concerned Board of Studies and shall be approved by the Academic Council and the Executive Council. Only approved courses can be offered during any semester.

2. In each semester, there shall be at least two Mid-term Examination (Internal) and one End semester Examination (External).

3. A Candidate with a backlog subject can appear in the examination of that paper whenever it is scheduled, subject to his/her fulfilling other conditions as laid down in respective ordinances of University.

4. The marks to be awarded as internal assessment shall be based on continuous evaluation of theory, practical, seminar, assignments, class work, mid-term etc. The weightage of marks to be accorded to each of the aforementioned sub-division shall be decided by the concerned Board of Studies.

5. Each Student, registered for a course, shall be awarded grade by the concerned faculty/ faculties of the specific subject/paper. The grade awarded to a student depends upon his performance in various examinations, assignments, laboratory work, Class work, midterm etc. The grades to be used and their numerical equivalents are as follows:

Credit Based Grading system

Grade	Grade Points	Description of performance
A+	10(91-100)	Outstanding
A	9(81-90)	Excellent
B+	8(71-80)	Very Good
B	7(61-70)	Good
C+	6(51-60)	Average
C	5(41-50)	Satisfactory
D	4(40 only)	Marginal (for PG Course)
D	4(31-40)	Marginal (for UG & Course)
F	0	Fail
I	0	Incomplete
W	0	Withdrawal

Minimum Grade Point Required for Promotion in Higher Course shall be 5.0

Rule – The semester grade points average (SGPA) is calculated as follows:-

$$SGPA = \frac{\sum_{i=1}^{n} c_i p_i}{\sum_{i=1}^{n} c_i}$$

Where C_i is the number of credits offered in the i th subject of a Semester for which SGPA is to be calculated , P_i is the corresponding grade earned in the i th subject and i represents ith subject, the semester is having n number of subjects

$$CGPA = \frac{\sum_{j=1}^{n} SGj \;\; NCj}{\sum_{j=1}^{n} NCj}$$

SGj = SGPA earned the jth semester.
NCj = Total credit allotted to jth semester.
j = 1…. n represents the number of semesters in a given course.

6. Student may be awarded grade “I” (Incomplete) in courses, if he has missed a minor part of the course requirement, but has done all other parts satisfactorily. A student is not entitled for “I”

grade simply because he has failed to appear in some examinations. Minor in this context shall imply tutorial/assignment or any other class work defined by the University as minor from time to time. An “I” Grade cannot be given for research units. An “I” grade award to any student must be converted to an appropriate later grade. Student awarded an “I” grade shall automatically be converted to a “F” grade, if he fails to make up such examination.

7. In one semester the number of credit offered to the candidates may be from 20-40 credits as decided by the concerned Board of Studies.

8. For award of the degree a candidate should have secured minimum CGPA from a total of credits allocated for the course, as recommended by the concerned Board of Studies.

9. The final examination grade sheet at the end of final semester examination of the course will show the Cumulative Grade Point Average (CGPA), percentage and division also. The division will be allotted according to the rule recommended by the concerned Board of Studies and approved by the Academic Council and the Executive Council of the University.

Initiative taken from session 2022-23

From the academic session 2026-27, several initiatives are taken to revamp the existing curriculum in view of “Curriculum Framework for Undergraduate Programmes for implementation in Higher Educational nstitutes” communicated by University Grants Commission (UGC) and AICTE in light of NationalEducation Policy (NEP) 2020. A brief summary of some measures taken are as follows:

I. A tentative semester wise credit distribution for B.Tech. program is as follows:

Semester	Credits
I Semester	20 Credits
II Semester	20 Credits
III Semester	20 Credits
IV Semester	20 Credits
V Semester	20 Credits
VI Semester	20 Credits
VII Semester	20 Credits
VIII Semester	22 Credits
Total	162 Credits (Min.)

II. Minor degree / Honors degree

There is a provision for students opting for minor degree / honors degree if they earn extra 20 credits. A student can acquire these 20 credits through MOOCS courses only from V semester onwards. The basket of MOOCS courses for minor / honors degree will be declared well in advance and be approved through BoS. This option be made available only those students who have CGPA > 7 and no backlog can be permitted to opt for this. A faculty member will act as mentor for each of

these courses. The in house assessment for MOOCs courses (if required) will be done only after a well developed moderation process.

III. Provision of summer semester

In the final year of B.Tech. course if a situation arises when a student who got placed is asked to do internship / undergoing internship at remote location and cannot appear for MOOCs course or assessment. If such a student has a backlog of previous semester, then there will be a 8 week summer semester will be for above mentioned students if they apply well in advance. This provision of summer semester will be only for final year students, to enable them clear their backlog of only VII / VIII semester subject may help them in securing a job or enroll for higher education and save their one year. The teaching learning will be through assignments and if required through instruction medium.

IV. Open electives (OE) courses

There is a provision of 2 open elective (OE) courses with a total weightage of 06 credits in B.Tech. curriculum from V semester onwards. These courses are to be selected by students from other departments (i.e. not from parent Department). While selecting these courses, a student should check his eligibility as per the prerequisite (if any) mentioned.

V. Acknowledging club / co-curricular activities

For over all development of a student, every student should participate in co-curricular activities of his choice. He can join various clubs, NCC or NSS etc. Participation in these activities will be assessed each year and for assigning 1 credit per year in B.Tech. Program.

VI. Holistic and Value added courses

To improve employability of B.Tech. students, it is proposed to provide them an option to register in one of the holistic education courses from III sem. There are some value added courses also viz. AI- machine learning, supply chain management, green chemistry, laser technology, nonconventional energy sources, digital marketing, project management etc. These courses will of 30 Hrs. duration and will be taught during weekends and after assessment grading of students will done. These courses will be non credit and above the minimum requirement of 162 credits.
